## APEX<sup>®</sup> DUAL TONE COLOUR GUIDE

Apex<sup>®</sup> dual tone colour range adds an extra layer of colour to each board to enhance the natural look of your composite project. The variance in shades within a single composite profile beautifully showcases the colour tones found in timber, making your composite all the more striking. Dual tone colours are ideal for mid-to-large-scale composite decks and projects, or other areas that are all about that natural look.

**Note:** Apex<sup>®</sup> dual tone is available in a wide range of colours. To find out which colours are available in your region, please visit your local Eva-Last<sup>®</sup> website.

## EVA-TECH® COLOUR GUIDE

The Eva-tech® colour range offers classic and timeless natural colours in a matte finish to suit the look of your outdoor space. Each colour is specially designed to evoke the essence of a particular timber type, and each is presented in a neat, grooved finish that is both sleek and understated. The slip resistant surface provides an element of safety to accompany the handsome timber-like aesthetic.
