ADVANCED BAMBOO COMPOSITE CLADDING

in
Apex[®]

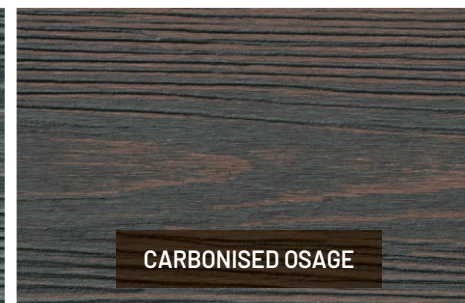

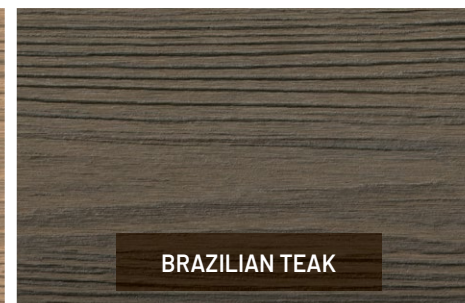

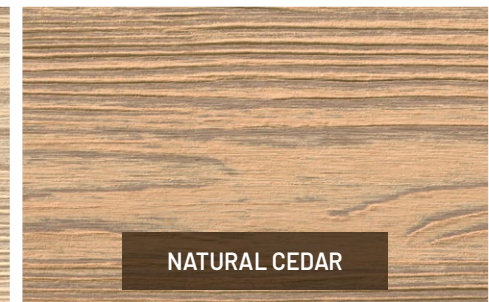

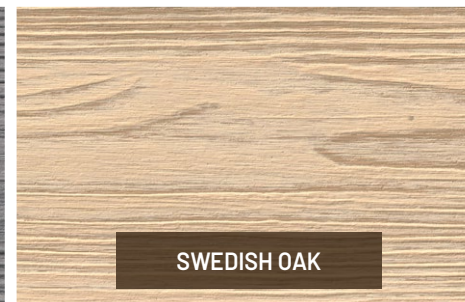

CAPPED, BAMBOO-PVC MATERIAL

VISTACLAD IN APEX DUAL TONE COLOUR TECHNOLOGY

The Apex dual tone colour range offers a sculpted grain finish for more natural looking cladding. Each cladding board has an extra layer of colour added to create the subtle variances found in timber. The sculpted grain finish produces a texture that embodies the look of wood to give your exterior walls the beauty of timber cladding in a more resilient, low-maintenance, and eco-friendly composite option.

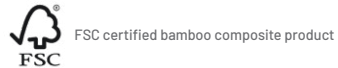

Note: To find out which colours are available in your region, please visit your local Eva-Last website.

in
Infinity[®]

CAPPED, BAMBOO COMPOSITE MATERIAL

VISTA CLAD IN INFINITY STREAKED COLOUR TECHNOLOGY

The Infinity colour range offers specialised streaked colour technology to ensure that no two cladding boards are identical and to give your exterior walls the look of natural timber cladding. The brushed finish applied to the VistaClad Infinity cladding boards further enhances the natural tones, allowing you to enjoy the look of timber cladding in a more durable, hassle-free, and sustainable bamboo composite.

LIFESPAN™

COMPOSITE ARCHITECTURAL BEAMS

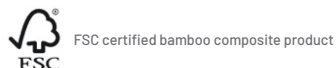

HYBRID ALUMINIUM BAMBOO COMPOSITE BEAM

LIFESPAN[™]
COMPOSITE ARCHITECTURAL BEAMS

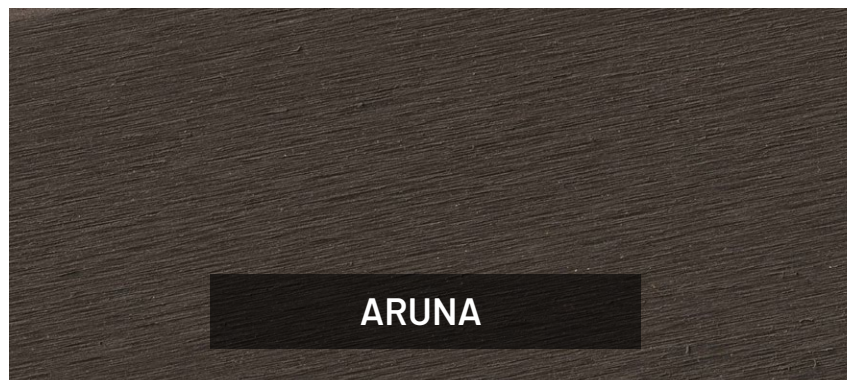

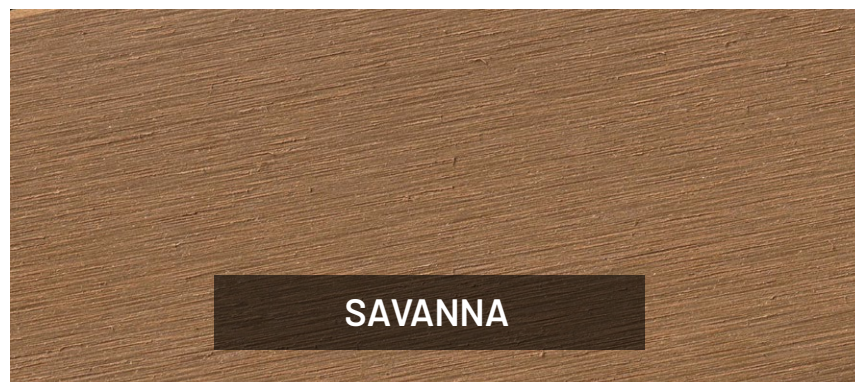

in
Eva-tech[®]
BAMBOO COMPOSITE COATED FINISH

LIFESPAN EVA-TECH COLOUR GUIDE

Lifespan architectural beams provide the look of impressive wood beams in a smart design to give you a longer lasting, lower maintenance, and more sustainable alternative for your outdoor projects. Lifespan beams are available in the Eva-tech colour range. These classic colours are offered in a timeless matte brushed finish and are specially designed to evoke the essence of a particular timber type. Enhance your outdoor space with Lifespan beams and choose the colour that best suits your style.
